FLIP FLOP YOUR THINKING

With Dave Blake

Introducing the
Flip Flop Philosopher

After a major medical mistake, this industry leader found himself in a dark hole, seemingly impossible to escape. In pursuit of relentless forward progress towards his true desire to walk, talk and 'live' again, he Flip Flopped his thinking, created a Life by Design, then retook the stage to share the radical path he forged to get from where he was to where he wanted to be...a return to **Outrageous Humanness**.

Dave's expertise on human connection, leading people from distraction to action, is **highly sought after** by industries and associations such as the Sandy Hook Promise Group. After the Broward County school shooting, Dave traveled the states to share the Know The Signs program with over 400,000 middle and high school students, administrators and law enforcement. He has taught new skills to those recently released from prison to empower them to remove the mental blockers holding them back from their greatness. As a representative for the *on the go disabled*, who believes in connection and belonging, Dave has lent his voice to countless groups and towns to assist in creating healthier, more inclusive communities.

Infusing humor, this National Action Speaker and Synergy Coach helps people re-energize and shows companies how to re-imagine resilience by putting humans center stage. He is a Past President of the National Speakers Association and the admired originator of the Flip Flop Philosophy™.

Outside of speaking, Dave resides in South Florida with his wife Lisa. Most days you can find him 'on' the water sailing with friends, 'above' the water parasailing or 'by' the water drinking coffee and hanging with a turtle.
